

PREVENTION, CARE & TREATMENT PROJECTS

Project Code	Program Name / Details	Partners (Funder / Other Funders)	Status
001B	Annual subvention from the Government of Uganda (GOU) through Makerere University to bridge the funding gap in the IDI's Adult Infectious Diseases Clinic	Government of Uganda/Makerere University	Ongoing
021B	Skin biopsies for patients suspected to have kaposis sarcoma	University of California, San Francisco (UCSF)	Completed
046	Project for enhancing livelihoods of IDI Clinic patients	Donald & Jennifer Holzworth and the Triangle Community Foundation/Accordia Global Health Foundation	Completed
049	Preventing HIV transmission by HIV positive adolescents and amongst discordant couples (Phases 1 and 2)	The Uganda Civil Society Basket Fund (a range of funders including USAID, DFID, DANIDA and Irish Aid)	Completed
056	Scaling-up an urban-setting family planning & HIV services integrated service delivery model in Kampala, Uganda	Tides Foundation	Completed
062	Adolescent Transition Clinic and Peer Support Program at the AIDC for provision of adolescent-specific HIV prevention, care and treatment services	Poenki vzw – Positief, Belgium	Completed
092	CSF – Strengthening HIV Care and Treatment in Regional Referral Hospitals in Uganda (Phases 1, 2 and 3)	The Uganda Civil Society Basket Fund (a range of funders including USAID, DFID, DANIDA and Irish Aid)	Completed
110	The IDI Young Adult Patients' Scholarship Program	Mr. Don Holzworth/Accordia Global Health Foundation	Ongoing
134	Sustaining public HIV services in a post - PEPFAR world through socially acceptable charging of patients	Grand Challenges Canada (GCC)/Dalhousie University	Completed
159	Implementation of TAMA (Treatment Advise by Mobile Alerts): the open source m-health component of the Call for Life Academy – a dynamic virtual community	Janssen Pharmaceuticals Global Public Health R&D	Completed
170A	The Secretariat: this is a component of the Ugandan Academy for Health Innovation and Impact which is a flagship implementation of the Janssen Connect for Life™ program. The Secretariat will provide strategic oversight to ensure that the objectives of the Ugandan Academy are accomplished. The primary objectives of the Academy include: 1. To gain an understanding on conditions affecting HIV and TB drug treatment effectiveness and prevention of HIV and TB drug resistance in Uganda; 2. to develop and implement models to facilitate the professional development of Health Care Professionals and Allied Health Care workers as well as to promote health knowledge, healthy behaviors and adherence to treatment through the use of mobile health (m-health) services and other trending technologies	Janssen Global Public Health R&D	Ongoing
170B	Governance support for Connect for Life	Janssen Global Public Health R&D).	Ongoing

170C	Mhealth/Call for Life: Is a mhealth demonstration project also known as “Call for Life” which aims to support people living with HIV with medication adherence and management of their symptoms. The call for Life program was developed by Janssen as part of its commitment to global public health and in collaboration with their partners and is a voice or text based interaction using simple mobile phones	Janssen Global Public Health R&D	Ongoing
170D	Capacity Building: This project is aimed at enhancing the competence of health workers to manage HIV, TB, and other infectious diseases. IDI will provide educational opportunities to health workers and increase access to educational resources and subject matter experts through electronic media	Janssen Global Public Health R&D	Ongoing
170E	Long term longitudinal cohort study; is a 10 year ART cohort being undertaken at IDI, which will study the long term effects of ART, as well as long term adherence and management of second and third line treatments. 1000 patients have already been enrolled in this research trial, and it will monitor viral load and CD4 counts as well as markers of non-communicable diseases (NCD) such as hypertension, diabetes and high cholesterol.	Janssen Global Public Health R&D	Ongoing
170F	Masters/PHD Students; The Ugandan Academy for Health Impact and Innovation’s goal is to undertake clinical, research and training programmes relevant to the health needs and problems of Uganda. It aims at awarding scholarships to Masters in Public Health, Post-Doctoral and PHDs annually	Janssen Global Public Health R&D	Ongoing
170G	Sub awards	Janssen Global Public Health R&D	Ongoing
170H	Janssen Global Health Fellows; Janssen staff with specific skills will be encouraged to undertake a 3 month to 12 months assignment within the Call for Life Academy to support specific projects or the secretariat in order to further understand the impact of the Call for Life Academy and novel ways to sustain these services.	Janssen Global Public Health R&D	Ongoing
